

Bandingstation 10181

1000 Bandingstation

Bandingsstation 10181

Technical Data:

Package format min.:	50 mm	Net weight:	75 kg
Height of frame (A):	200 mm	Electrical connection:	1 Phase 230/115V 50/60Hz
Package format max (B).:	320 mm	Total power required:	500W
Channel width:	62 mm	Total compressed air required:	15 l/max. 6 bar
Banderole width:	60 mm	Machine performance:	ca. 34 strokes per minute -dependent on product and frame size
Paper thickness:	70 g/qm or 80 g/qm	Banding start:	- manual with hand or foot switch - automatic with sensor
Foil thickness:	50 - 100 μ		
Tractive power:	adjustable		
Tape feeding:	vacuum frame with round belt driving		

Dimensions:

Table height (C):	950 mm
Machine height (D):	1260 mm
Machine length (E):	600 mm
Width of foot (F):	500 mm
Machine width (G):	532 mm

Special Characteristics:

- electronic temperature control
- stand for use of big rolls
- programm memory
- counter
- delay start impulse
- in-feed automatic
- SPS-PC board
- touchscreen
- extra tension
