

Countmaster CS 399

Note counting machine

Technical specifications:

Max. counting speed:	depends to disk (page 5)
Countable material:	paper
Weight of the material:	depends to disk (page 5)
Max. paper cut size:	100 x 200 mm
Min. paper cut size:	45 x 80 mm
Max. packet size:	up to 130 mm
Electrical connection:	Single phase / N-230 V AC / 50-60 Hz.
Power:	0,6 kW
Dimensions:	995 x 840 x 1454 mm (L x W x H)
Weight:	approx. 250 kg

Countmaster CS 399

Layout:

Basic configuration:

- Programmable Logic Controller available
- Operation and setup of the machine by multi-lingual full colour touch screen
- Easy and fast to operate
- Internal memory to store counting results
- Integrated vacuum pump
- Machine designed for multi-shift operation
- Maintenance friendly
- Safe your counting results on an USB
- Counting results only deletable by authorized operators (password protection)
- Maintenance unit for compressed air
- Counting results (good/bad) can be symbolized by colours (green/red) in the full screen of the operating display
- Transport rolls
- USB, ethernet, RS232 interface

Countmaster CS 399
